# Mathematical substantiation of the abnormal movement of the cosmic probes

© E.R. Smol'yakov, V.A. Efryushkina, N.V. Zolotova

Bauman Moscow State Technical University, Moscow, 105005, Russia

*The authors analyze stability of some exotic orbits in the gravitational field and irregular movement of the American space probes leaving the Solar system.*

**Keywords:** *stability of trajectories, anomalous movement, cosmic probes.*

**Smol'yakov E.R.**, Dr. Sci. (Eng.), Professor of the Higher Mathematics Department of Bauman Moscow State Technical University. e-mail: ser-math@rambler.ru.

**Efryushkina V.A.**, Senior Lecturer of the Higher Mathematics Department of Bauman Moscow State Technical University.

**Zolotova N.V.**, Senior Lecturer of the Higher Mathematics Department of Bauman Moscow State Technical University.
