# Students' research activity model within continuing education

© T.Yu. Tsibizova

Bauman Moscow State Technical University, Moscow, 105005, Russia

*This article is about general objects of educational system at the stage of transition to postindustrial society. It is shown that one way to achieve these goals is to organize research activities of students in continuing education. The generalized model of research activity organization for all categories of students in the system of continuing professional education has been developed.*

**Keywords:** *research activity, continuing education, educational process, professional activity.*
