
Problems and prospects of development of mobile robotics for military purpose

© I.V. Rubtsov, A.A. Boshlyakov, V.S. Lapshov, K.Yu. Mashkov, V.P. Noskov

Bauman Moscow State Technical University, Moscow, 105005, Russia

The article presents an analysis of the current state and basic directions of foreign military ground robotics. It also considers the current status and major challenges of robotization of ground military equipment in the Russian Federation. The authors suggest prospects for development technologies and technical means of mobile robotics for military purpose.

Keywords: *robotic systems for military purposes, mobile robots, automatic movement control, technical vision system.*

Rubtsov I.V. (b. 1946) graduated from the Moscow Forestry Engineering Institute. Cand. Sci. (Eng.), assoc. professor, head of the "Robotic Systems and Mechatronics" Department at the Bauman Moscow State Technical University, head of the department of the Research Institute for Special Mechanical Engineering of BMSTU. Winner of RF Government Prize in Science and Technology in 2008. Author of more than 100 publications in the field of robotics and control systems. e-mail: kafsm7@sm.bmstu.ru

Boshlyakov A.A. (b. 1964) — Cand. Sci. (Eng.), assoc. professor of the "Robotic Systems and Mechatronics" Department at the Bauman Moscow State Technical University; senior researcher of the Research Institute for Special Mechanical Engineering of BMSTU. Author of more than 40 publications in the field of design of high-precision mechatronic modules. e-mail: kafsm7@sm.bmstu.ru

Lapshov V.S. (b. 1961) graduated from the Bauman Moscow Higher Technical School in 1984. Head of sector of the Research Institute for Mechanical Engineering of the Bauman Moscow State Technical University. Author of more than 30 publications in the field of special-purpose mobile robotics and control systems. e-mail: lapvs@rambler.ru

Mashkov K.Yu. (b. 1944) graduated from Bauman Moscow Higher Technical School in 1968. Cand. Sci. (Eng.), assoc. professor of the "Robotic Systems and Mechatronics" Department at the Bauman Moscow State Technical University; senior researcher of the Research Institute for Special Mechanical Engineering of BMSTU. Author of more than 80 publications in the field of interaction of propulsive agent with soil and design of chassis of mobile robots. e-mail: kafsm7@sm.bmstu.ru

Noskov V.P. (b. 1951) graduated from the Taganrog Radio Engineering Institute in 1974. Cand. Sci. (Eng.), assoc. professor of the "Robotic Systems and Mechatronics" Department at the Bauman Moscow State Technical University; head of a sector at the Research Institute for Special Mechanical Engineering of BMSTU. Author of more than 100 publications in the field of robotics. e-mail: noskov_mstu@mail.ru
