Some issues about creating of pneumatic servo drive are discussed. Based on the fundamentals of pneumatic, the mathematical model of servo drive is developed. The adequacy of mathematical model is confirmed by experimental research.

Efremova K.D., Assoc. Professor of the Hydromechanics, Hydraulic Machines and Hydrapneumoautomatics Department of Bauman Moscow State Technical University. Author of more than 70 publications in the field of the fluid mechanics and pneumoautomatics. e-mail: kde@bmstu.ru

Pilgunov V.N. (b. 1941) graduated from Bauman Moscow Higher Technical School in 1964. Ph. D., Assoc. Professor of the Hydromechanics, Hydraulic machines and Hydraupneumoautomatics Departement of Bauman Moscow State Technical University. Author of more than 60 publications in the field of the fluid mechanics and hydropneumoautomatics. e-mail: vnp41@yandex.ru
