Bauman Moscow State Technical University, Moscow, 105005, Russia

AOTF imaging spectrometer and spatial distribution of thin ITO-coating film thickness measurement technique are described.

Keywords: *acousto-optics, acousto-optical filter, spectral imaging, ITO-coating.*

Perchik A.V. graduated from Bauman Moscow State Technical University in 2004. Ph. D., Senior Researcher in Bauman Moscow State Technical University, Research and Educational Center “Photonics and Infrared Technology”, Head of the Acoustooptics Laboratory.

Tolstoguzov V.L. graduated from Bauman Moscow State Technical University in 2004. Researcher in Bauman Moscow State Technical University, Research and Educational Center “Photonics and Infrared Technology”, Head of MOEMS Laboratory.

Stasenko K.V., student of the Radioelectronics and Laser Technology Department of Bauman Moscow State Technical University.

Tsepulin V.G., student of Radioelectronics and Laser Technology Department of Bauman Moscow State Technical University.
